

**Initial Statement Of Reasons
Title 27 Cleanup Regulations
Office of Administrative Law Notice File Number: Z**

Effort to Avoid Duplication or Conflicts with Federal Regulations

The California Environmental Protection Agency's (Cal/EPA's) Unified Program was begun in 1994 and oversees six environmental and emergency response programs carried out by local governments statewide. Now that all jurisdictions are authorized as Certified Unified Program Agencies (CUPAs) or a state agency is the designated CUPA, the current title 27 division 1, subdivision 4, chapter 1 needs to be updated and reorganized to more clearly present the operational aspects of the Unified Program. This program is unique to California; therefore, these regulations do not conflict with federal regulations since there are no comparable federal regulations.

Studies Relied on

No studies were conducted or necessary.

Alternatives Considered

Chosen alternative: Alternatives were not considered because the proposed amendments are solely administrative and do not impose any new reporting requirements or make any regulatory changes.

Do nothing: Cal/EPA rejected this alternative because this chapter of title 27 has undergone comprehensive workgroup review and discussion as discussed below. The Secretary of Cal/EPA decided that it would be negligent in its responsibilities not to move forward with these regulations.

Detailed Statement of Reasons

Unless otherwise noted, all references to "statutory sections" refer to sections of the Health and Safety Code.

From June 2003 to May 2006, Cal/EPA sponsored and chaired the Title 27 Regulatory Review Working Group to review title 27, division 1, subdivision 4, chapter 1 regulations for clarity, grammar, redundancies, and applicability after having all jurisdictions now authorized as CUPAs or a state agency designated as the CUPA. The workgroup consisted of representatives from state agencies (the Department of Toxic Substances Control, the State Water Resources Control Board, the Governor's Office of Emergency Services, the Office of the State Fire Marshal); US EPA, local jurisdictions, CUPAs; and the Cal/EPA Unified Program.

These regulations are solely administrative and do not impose any new regulatory requirements, hence the title 'administrative cleanup regulations.' These regulations:

- change the section headings from the question format to statement format for consistency with the rest of title 27;
- move text to improve organizational structure;
- remove duplicities;
- clarify existing language;
- remove outdated program start-up language; and
- conform to the requirements of the *California Style Manual*.

Format and Stylistic Changes: Non-substantive format and stylistic changes are proposed in sections 15100 through 15620.

- The section headings are being changed from question format to statement format to make this title consistent with the rest of title 27 in the California Code of Regulations. Examples include the following:

Section 15100 'What is the Unified Program?' is being changed to 'Unified Program.'

Section 15110 'What terms need to be clarified to understand the Unified Program regulations?' is being changed to 'Unified Program Definitions.'

- The names of state agencies and their associated programs and terms that are under the Unified Program are spelled out for the first usage, identified by acronyms, and the acronyms are used thereafter in this chapter. These include the following list:

Aboveground Storage Tank (AST)
California Accidental Release Prevention (CalARP)
California Environmental Protection Agency (Cal/EPA)
Certified Unified Program Agency (CUPA)
Conditionally Authorized (CA)
Conditionally Exempt (CE)
Department of Toxic Substances Control (DTSC)
Governor's Office of Emergency Services (OES)
Hazardous Materials Management Plans and
the Hazardous Materials Inventory Statement (HMMP/HMIS)
Hazardous Materials Release Response Plans (HMRRP)
Hazardous Waste Generator (HWG)
Joint Powers Authority (JPA)
Large Quantity Generator (LQG)
Participating Agency (PA)
Permit by Rule (PBR)
Risk Management Plan (RMP)
State Water Resources Control Board (SWRCB)
State Fire Marshal (SFM)

Underground Storage Tank (UST)
Unified Program Consolidated Form (UPCF)

- Several stylistic changes are being made to conform to the requirements of the *California Style Manual*. Those changes include the following.

Legal citations: When citations are outside parentheses, code names are unabbreviated, followed by 'section' spelled out, with no comma between the code name and the word section; however, commas are used between a section number and a subdivision.

Example for statutes: When used outside parentheses, citations read: Health and Safety Code section 15100, subdivision (a). When used inside parentheses, code names are abbreviated followed by a comma and the section symbol (§), and the word subdivision is abbreviated subd. Example: (Health & Saf. Code, § 15100, subd. (a)).

Example for regulations: When used outside parentheses, citations read: California Code of Regulations, title 27, division 1, subdivision 4, chapter 1, part II, article 1. When used inside parentheses, citations read: (Cal. Code Regs., tit. 27, div. 1, subd. 4, ch. 1, pt. II, art. 1).

Numbers: Numbers that start sentences and numbers from zero to nine are spelled out and not written as numerals, except for dates, clock times, and money. Numbers of 10 and greater, except when starting a sentence, are written as numerals and not spelled out. Also, numbers are not written out and then followed by numerals inside parentheses. For example, 'five (5)' is incorrect.

Capitalization: The words appendix, article, chapter, division, section, subdivision, and title are not capitalized unless they begin a sentence. All occurrences of the 'data dictionary' are written in lower case except when used as a proper noun 'Unified Program Data Dictionary.' All occurrences of the phrase 'single fee system' and the word 'state' are written in lower case.

Grammatical correction in dependent clauses: Use of the words 'which' and 'that.' All occurrences of the word 'which' used in dependent clauses are changed to 'that.'

Article 1: Introduction

Section 15100. Change question into statement format.
